### What People Are Saying About Us

Greg, the video tribute you created for our daughter will always be a part of our family and something we will have to keep her memory alive within us. The entire family thanks you for what you helped create. Our daughter would be proud. I know all of us certainly are.

 Professional Sports Photographer

We had debated not hiring a videographer with all the wedding expenses we already had. Let me say, I am so glad we did because the wedding disc you made for us is something we will treasure all the years of our marriage. And our future children will love it too! Thanks Greg.
